DISCOVERIES IN THERAPY

Rosanne Brezden Papadopoulos, O.T. Reg. (MB)
RDI® Program Certified Consultant
B101 – 11 Evergreen Place, Winnipeg MB R2L 2T9
Phone: (204) 254-3146
Fax: (204) 253-6105
Email: kidsandteens@mymts.net
Website: www.discoveriesintherapy.com

Area Served: No particular geographic district.

Nature of Practice:

- Issues related to neurodevelopmental disabilities that include children, adolescents and their families;
- Consultation to parents or professionals;
- Workshops or professional development opportunities;
- Experiential classroom presentations.

Services Provided: Primary intervention includes:

- Relationship Development Program (RDI®).
www.rdiconnect.com. An RDI® program is a carefully designed, apprenticeship-based remediation program targeting the development of dynamic intelligence. It was originally designed for individuals on the autistic spectrum but has expanded to include other diagnosis that impacts on social development. RDI® seeks to engage guides (parents, mentors of adults) in methods of interaction that follow normal development. This process activates brain pathways and develops dynamic thinking ability that ultimately lead to quality of life. Through RDI®, interactive opportunities are constructed and spotlighted in such a way as to allow the child to discover what was previously missed, build upon those discoveries in meaningful sequences, and integrate at a deep, lasting level.

Other interventions include:

- Integrated Listening Systems®
www.integratedlisteningystems.com An ILS® program is a multi-sensory, neurophysiological approach that

continued...

Discoveries in Therapy (continued)

combines auditory stimulation with balance, movement and visual motor activities. Research has found this program effective for children experiencing attention difficulties in auditory processing, reading/learning, alertness/focus and self-esteem.

- Child centered approach that includes cognitive behavioral strategies, sensory processing, and the CIRCLES program. This style of therapy is most useful for children or adolescents who require assistance in the areas of emotional self-awareness, self-management skills, relaxation strategies and sexuality education. For some clients, a classroom presentation may be recommended to help their peers develop understanding and compassion.
- Parents and teachers become involved through meetings and education designed to increase their knowledge regarding the child's sensory or educational needs within their learning or home environment. A home therapy book may be used to transfer learning from the clinic to the child's home and school environment.
- Workshops/consultation to parents or professionals regarding the issue of sexuality and disabilities including knowledge and integration of specialized methods to keep children/adolescents with special needs "safe".
- Specialized curriculum development in the area of sexuality and special needs for students who are unable to learn this material within the regular junior high or high school environment.

Ages served: Primarily 4 - 18, parents and teachers
Special needs adults also considered

Special Interests: -Dynamic intelligence in neurodevelopmental disorders
-Implications of relationships upon the neurophysiological process
-Sexuality and developmental disabilities

System of Referral: Self, physician, parent, etc.

WORK-ABLE SOLUTIONS - Occupational Therapy Consulting Services

Elaine Huzel, O.T. Reg. (MB)
P.O. Box 38033, Winnipeg R2E 1H3
Phone: (204) 338-0601
Fax: (204) 334-8898
e-mail: elaine@workablesolutions.ca
web: www.workablesolutions.ca

Area Served: Manitoba.

Nature of Practice: *Work-Able Solutions* is a private organization that has provided community and clinic-based occupational therapy services in Manitoba since 1998. Rehabilitation services are aimed at assisting individuals who have sustained an injury, illness, or disability, to achieve their maximum level of function, and to return to work and activities of daily living. Workplace intervention services are designed to prevent risk of injury, improve productivity, and facilitate accommodation of workers with disabilities.

Services Provided: Work-Able Solutions offers a wide range of assessment and rehabilitation services that address a full spectrum of physical, cognitive and psychosocial impairments. Some of our services include ergonomic assessment, job demands analysis, functional capacity evaluation, cognitive assessment, activities of daily living assessment, reasonable accommodation assessment, return to work programs, acquired brain injury rehabilitation, chronic pain rehabilitation, home or community-based rehabilitation programs, education seminars and injury prevention workshops and programs.

Ages served: Adolescents and adults.

System of Referral: Direct or third party referrals are accepted. Contact Elaine Huzel by phone or in writing (fax, mail, or e-mail).
