

PRIVATE PRACTICE DIRECTORY 2018-19

COMPLETE LISTING

(including Adult, Children & Return to Work/Ergonomic Services)

How Can I Access Occupational Therapy?

1. Anyone can see a private practice OT!
2. You may see an OT without insurance or a doctor's prescription.
3. Most private practice OT's accept self-referrals, or referrals from family, school, or other health professional. Contact the individual company regarding their referral process.

How do I find an Occupational Therapist?

1. Read through the directory and search for a private practice OT that fits your needs (businesses listed in alphabetical order).
2. Press "Ctrl + F" and type the issue or support you are seeking help for. A box will appear on the top right corner. Type your search term and then use the arrows (up or down) to scroll through the document and find OT's that provide service for that area.
3. Need more help? Contact the MSOT office for additional support (msot@msot.mb.ca or 204-957-1214).
4. Please reach out to the individual OT companies with any specific questions about the services provided.

Will my extended health benefits cover the costs of private Occupational Therapy?

1. Find out if your extended health benefits plan includes coverage for Occupational therapy. If OT is not covered... ASK FOR IT!! (Sample letter templates at: <http://www.msot.mb.ca/finding-ot-services/>).
2. Ask your doctor for a prescription if your private insurance requires one.

The listings of occupational therapy practices in this directory are not necessarily endorsed by MSOT. Statements, claims and opinions made by occupational therapy private practice providers are those of the author or advertiser and do not necessarily reflect the views of MSOT members and Board members. The information contained in the Directories is subject to change without notice.

Summary of Practice: Enabling Access Inc. provides community and clinic-based rehabilitation and workplace disability management services, hosts educational workshops, instructs University level courses, and offers expert speaking engagements at conferences. Our Rehabilitation OT's specialize in working with clients who have sustained spinal cord injuries, mild traumatic brain injuries/concussions, and those living with Mental Health conditions. We determine current functional abilities, home modifications, and return to work accommodations, considering physical, cognitive and psychosocial potential. Our workplace disability management OT's specialize in preventative ergonomics and connecting health and safety, with efficient stay at work, and return to work programming. As Inclusive Design Specialists, our accessibility auditing and consultative services assist employers in creating inclusive workplaces.

Email: mlandmccarthy@gmail.com

Summary of Practice: Therapy provided for children, adolescents and families in a variety of environments. Treatment is guided by attachment and sensory based theories and utilizes the family to help identify goals, strengths and facilitate growth. Megan's interests and passion include working therapeutically with children and adolescents who have experienced trauma, struggling with mental health issues such as anxiety, ODD, OCD, ASD or ADD/ADHD as well as Neuro-developmental and sensory processing disorders. Intervention can be provided in a consultative manner, individually or group. Therapist has specialized training in areas of attachment and Trauma. Megan is also a service provider for CFS agencies.
