

## **Return-to-Work/Ergonomic Services Listing**

### **How Can I Access Occupational Therapy?**

1. Anyone can see a private practice OT!
2. You may see an OT without insurance or a doctor's prescription.
3. Most private practice OTs accept self-referrals, or referrals from family, school, or other health professionals. Contact the individual company regarding their referral process.

### **How do I find an Occupational Therapist?**

1. Read through the directory and search for a private practice OT that fits your needs (businesses listed in alphabetical order).
2. Press "Ctrl + F" and type the issue or support you are seeking help for. A box will appear on the top right corner. Type your search term and then use the arrows (up or down) to scroll through the document and find OTs that provide service for that area.
3. Open "Bookmark" icon (  ). Click on the Bookmark link to go directly to that page.
4. Need more help? Contact the MSOT office for additional support ( [msot@msot.mb.ca](mailto:msot@msot.mb.ca) or 204-957-1214, ext. 21).
5. Please reach out to the individual OT companies with any specific questions about the services provided.

### **Will my extended health benefits cover the costs of private Occupational Therapy?**

1. Find out if your extended health benefits plan includes coverage for Occupational Therapy. If OT is not covered ... ASK FOR IT!! (Sample letter templates at: <http://www.msot.mb.ca/finding-ot-services/>).
2. Ask your doctor for a prescription if your private insurance requires one.

*The listings of occupational therapy practices in this directory are not necessarily endorsed by MSOT. Statements, claims and opinions made by occupational therapy private practice providers are those of the author or advertiser and do not necessarily reflect the views of MSOT members and Board members. The information contained in the Directories is subject to change without notice.*

Email: [marnie@enablingaccess.ca](mailto:marnie@enablingaccess.ca)  
Website: [www.enablingaccess.ca](http://www.enablingaccess.ca)

**Summary of Practice:** We are enabling access to improved health, well-being, safety, and accessibility for individuals and workplaces in Manitoba and Northern Ontario. We assist workplaces in reaching their health and safety goals through injury prevention and disability management services. Our Rehabilitation Services focus on assisting clients with mental health issues, complex medical conditions, spinal cord injuries, and acquired brain injuries/concussions in optimizing ability and function. We offer Pediatric Occupational Therapy to help children from infancy through adolescence to reach their full potential with individualized clinic and community-based direct and group therapy. Our unique Safe Living Manitoba Home Modification program is helping to create accessible and safe homes for individuals with disabilities and those wanting to age in place. With 15 years in business, Enabling Access is a leader in workplace disability management, rehabilitation, and accessibility. Our expert occupational therapists are presenting frequently at conferences, teaching University level courses, and providing medical-legal services for personal injury firms internationally.

**Summary of Practice:** Work-Able Solutions is an occupational therapy and ergonomics consulting firm based in Winnipeg, Manitoba. We have been in operation since 1998, and offer a team of occupational therapists with diverse clinical training and expertise. Our rehabilitation services enable individuals to regain ability and function at home, at work, and in the community. Our ergonomic and workplace services are tailored to reduce injury risk, manage disability, improve productivity, facilitate return to work, and identify accommodation solutions.
