2.1. Janet Kumka, MPI Occupational Therapist - MPI

We are all learning individually how to modify our practice as a result of COVID-19, however, this may be an opportunity for us to review any specific directions from MPI and ask questions we may have. Janet has suggested she would find it helpful to hear from us about the different platforms private OT's are using and which are more successful than others and for what reasons? She suggested it would be helpful to get a list of questions on the issues people may be experiencing prior to the meeting so she can have an idea of what information people are needing, therefore, please send any questions for Janet to personalbesttherapy@shaw.ca and I will forward a list to Janet prior to the meeting. She will welcome on the spot questions as well and do her best to obtain the information from the specific source as needed at MPI.
